

## Lost Valley Educational Center -- Donation Wishlist

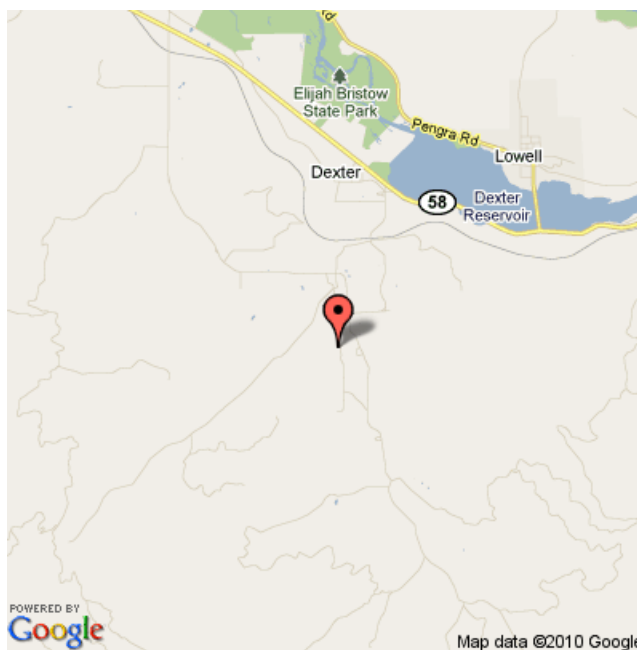

**About:** Lost Valley is a nonprofit environmental educational center (located 18 miles southeast of Eugene, OR) dedicated to empowering people to lessen their impact on the earth by teaching permaculture and sustainable living skills. Since 1989, Lost Valley has served as a site for experiential learning through our educational programs, as well as within our residential ecovillage. Our programs include: the Camassia Institute for Sustainable Communities, a retreat and conference facility, a Nature Center and a comprehensive internship program. LVEC uses a permaculture approach to care for our 87 beautiful acres of gardens, meadows, forests, pond, creek and trails.

**Address:** 81868 Lost Valley Lane Dexter OR, 97431

**Contact:** John Botti
